Core Capabilities

All Services are offered to Residential and Commercial Clients

▶ Interior Demolition

we take on projects as small as bathroom demos and go all the way up to full interior residential /commercial gutting.

▶ Structural Demolition

We take on projects as small as shed demolitions and go all the way up to building demolitions.

▶ Concrete Removal

We take on projects as small as sidewalks and go all the way up to any large parking lots/roads.

Past Performance

- ▶ Concrete Exhaust Stack Foundation Removal from BAE Systems in Fridley, MN; We removed an 11' in diameter exhaust stack foundation that went 7' into the ground. After removal, we backfilled with dirt and graded the area. 100% of the concrete from the project was recycled.
- ▶ 210' x 30' Warehouse Wall Demolition from Bell International Laboratories in Eagan, MN; We removed a warehouse divider wall to help the Client extend their warehouse space.
- ▶ 40' x 18' x 6" Concrete Pad Removal from National Flooring Equipment in Brooklyn Park, MN; We removed a concrete pad from inside of the National Flooring Equipments warehouse area. 100% of the concrete from the project was recycled

About Rick's Demolition

We are a demolition and concrete removal business that is located in Minneapolis, MN that provides our services to both residential property owners and commercial clients. We proudly serve the twin cities metro area and surrounding

Why Rick's Demolition

Our communication, our ability to find solutions to problems that arise on a given job, and how we handle a project from start to finish with the same level of care as if we are working on our own home/property
